

October 6, 2019

Greeting's to all from cool, nippy NE Iowa. It's late afternoon and it is only in the mid 50's and cloudy. Once when I looked this morning it was only 49. In the last few days we have gotten 3.5 in. of rain. Could be worse - could have been lower and with a little frost on the pumpkins. Can that be far behind? This Oct. luncheon will be a first for our group. We are going to the Toppling Goliath Brewing Co. for lunch. I have never been there. Charilyn called and set it up. When I looked for the address in the phone book I find there are two listings.

One on College Drive and the other on Old Stage Road. So -- I am assuming the address must be 1762 Old Stage Road. Coming from Decorah there is a road that goes to the left in the area across from the airport. I believe that is where we are going. If I am wrong will someone please let me know. When driving by I have noticed the building along that road but didn't realize it was Old Stage Road. One is never too old to learn something. Anyway, hope to see many of you there. Hope we end up at the right place. Take care. Sonja

(Humble Editor notes: It is true the place we are going is out by the airport north of Highway 9 in the industrial park. The original location of TBG is on College Drive. It is now a bar only and not a brewery.
